

YOUR spending ACCOUNT™

## Keep Up With Your Account via **Text Message**

When you **sign up for text messages** through the Your Spending Account (YSA) website, you'll instantly be notified of account details that are important to you.

## Getting Started Is Easy

Simply log on to the YSA website and go to **Your Profile** to select which text messages you'd like to receive.

## Ways You Can Stay Up to Date

Whether your employer offers a health care and/or dependent care flexible spending account, a Health Savings Account, or another type of spending account through YSA, you can request to have the following text messages sent to your mobile device:

- **Account Balance Notice.** If you'd like to receive text reminders with your available balance and any deadlines for using the money in your account, you can sign up for text updates—weekly, monthly, or quarterly—until your balance reaches zero.
- **Low Account Balance Alert.** If your account balance falls below the threshold amount you specify, you'll be alerted by text message.
- **Receipt Reminder for YSA Cardholders.** If you're required to submit a receipt (and any additional information, if necessary) to validate the use of your YSA card, you'll receive a text message that includes the deadline for submitting this documentation. If you don't take action within a couple of weeks, you'll receive another reminder.

## Why Sign Up for Text Messages?

Receiving texts about the status of your account will help you:

- Better manage your account
- Plan remaining expenditures for the year
- Estimate how much to fund your account next year

Log On

**Visit the YSA website for additional information.**
