If you have been impacted by the winter storms, please contact your Region HRVP to obtain an SRDF application.

Sysco Colleagues,

Over the last week, unprecedented winter storms have ravaged the southern and central parts of the U.S., where such frigid conditions happen only once every hundred years. On Tuesday alone, at least 20 cities suffered their coldest weather in history. As a result, millions of people are without power and facing significant damage to their homes in harsh, freezing temperatures.

Many of our fellow Sysco associates are experiencing the impacts of these winter storms, and they need our help.

To help respond to the immediate needs of our impacted associates, we have activated the **Sysco Disaster Relief Fund (SDRF)**. This fund helps Sysco associates offset the unexpected costs for immediate needs that arise following a natural disaster, like hotel rooms, meals and personal items, and ensures we care for our associates and their families during times when they need it most.

Click [here](#) or use the QR code at the bottom of this email to make a donation directly to the Sysco Disaster Relief Fund.

Any amount helps make a difference. Disasters aren't selective and can happen at any time, and to anyone. Sysco stands ready to provide much-needed support to our associates in times of crisis.

Thank you for your support of our associates and their families during this challenging time. If you have questions or are looking for other ways to contribute, please reach out to [Tammy McElroy](#), Senior Director, Corporate Social Responsibility.

Neil
